

```
#include <stdio.h>

int main()
{
    const int AMOUNT = 100;
    int price = 0;

    printf("请输入金额 (元): ");
    scanf("%d", &price);

    int change = AMOUNT - price;

    printf("找您%d元.\n", change);

    return 0;
}
```
